

INNOVATION IN ARAGON CAST MARBLE

1

APPEARANCE.

Inspired by the romantic stone walls of Medieval Castles, Aragon combines Old World texture and feel with random stone sizes and arrangement.

2

PERFORMANCE.

The sealed surface of the surround repels mold, mildew, fungus and bacteria while allowing the texture of the stone to dominate. Available in Mincey Classic™ or MINCOR™ our ASTM e84, Class A fire and smoke rated product line.

3

VALUE.

Aragon comes standard in a three panel system beautifully designed for style, easy installation, durability and practicality.
