Installation Instructions for Mincey Marble Manufacturing, Inc.

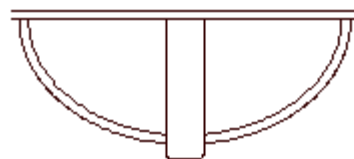

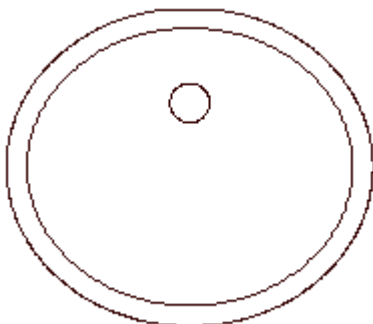

Undermount China Bowl

Product number: UCB

UCB

Please read the following before attempting to install your undermount china bowls.

Tools /Materials Required:

1. 100% silicone for marble to marble seams (color matched for the marble)
2. Clean, dry cloths to clean top and wipe caulking
3. 5/16" nut driver or Flat head screwdriver
4. Hex head machine screws and metal clips (These should have been packaged in a box and shipped with your order of bowls)

If you are missing the machine screws/metal clips, or cannot locate them in your shipment, please call us so we can help you locate them or send replacement screws. Our shipping department notes which crate the clips and screws are packaged in.

Installing Under-mount China Bowls:

If using an under mount bowl, mount it before installing the vanity top. Run a bead of silicone around the bowl, and then center it to give an equal overhang around the cut-out then with the mounting hardware secure the bowl to the top. **Hand - tighten** only so as not to drive the screw thru the top or to avoid chipping or cracking the bowl. Caulk around the inside of the bowl, where it touches the vanity top with silicone. Hand-held tubes of silicone are easier to use on the inside of the bowls.

If you have any questions, please call Mincey Marble Customer Service at 800.533.1806.
